

## Handy Mobile Charger

### CHARGER your portable devices on the go

We have all had the situation where our mobile phone has gone dead, the music has stopped, or we missed the last photo of the sunset. Well that should now be a thing of the past.

Solar mobile chargers are great for always having some backup power to hand when your mobile phone, MP3 player, or PDA etc runs low on power.

The units have a built in lithium ion battery that stores the power from the solar panel. So whenever the unit is left in the sunshine the battery is being charged.

Also the internal battery can be charged from the USB port of a computer, simply connect the supplied cable to the charger and then plug it into the USB port on your computer and it will charge whilst you are working on your computer.

To charge your equipment simply connect the supplied cable to the charger and then connect the adaptor for your type of mobile phone, MP3 player, PDA, etc.

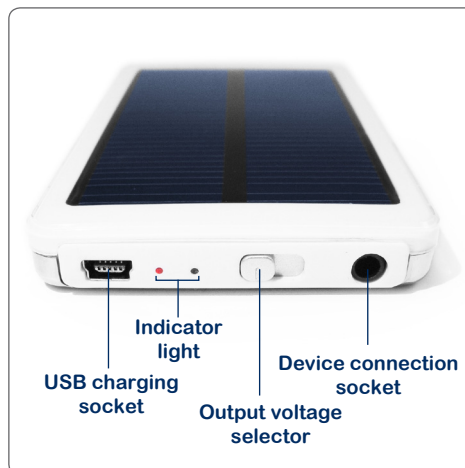

Each solar charger is supplied with 11 adaptors, these will fit with the majority of mobile phones, MP3 players, PDAs, handheld game players, compact digital cameras.

A soft storage bag is provided to make it easy to take your charger and your required connectors with you, and keep everything together.

## Main specifications

- Solar panel : 5.5V / 120mA
- PC USB charging: 5V / 500mA
- Li-ion rechargeable battery: 3.7V / 2000mA
- Output voltage / current: A: 5.5V / 500mA • B: 7.5V / 350mA • C: 9.5V / 300mA
- Super long standby time, current consumption < 150uA
- 2-3 hours to charge mobile phones
- 10-12 hours (under full sunlight conditions) \* for self-charging through solar panel
- 6-7 hours\* for self-charging through USB port
- With charging and discharging indication lights
- Reverse current protection circuit integrated to prevent batteries from being discharged
- Constant volts: 4.2 Volts
- Size: 103 (L) x 60 (W) x 10.8(H) mm
- Weight : 104g
- Compatible to mobile phones, MP3 players, PDAs, handheld game players, compact digital cameras.

\* Can be used partially charged

## Main feature

- High capacity battery & fast charging
- Super slim lightweight design
- Stylish chrome finish
- Complete with 11 different adaptors (This includes all leading brands such as Nokia, Sony Ericsson, MOTOROLA, LG, iPod, BlackBerry®, and also standard connections as USB, 3mm straight jack etc.)\*
- Includes soft storage bag
- All connector cables provided
- Adjustable output voltage
- Easy charge via solar or USB

\* Additional connectors are available.
